SUMMARY

Motivated Computer Science Engineering student with a strong passion for building AI-powered web applications and full-stack software systems. Skilled in React, TypeScript, Python, and FastAPI, with hands-on experience developing real-world products including an in-browser Braille detection tool (YOLOv8 + ONNX) and an AI-driven resume screening platform (SentenceTransformers). Proven leadership as IEEE Computer Society Secretary, organising technical events and workshops. Passionate about solving meaningful problems through technology and continuously pushing the boundaries of what I can build.

TECHNICAL SKILLS

Languages: Python · Java · JavaScript · TypeScript · C · C++

Frontend: React.js · TypeScript · Tailwind CSS · HTML5 · CSS3 · Vite

Backend: Node.js · Express.js · FastAPI

Databases: MongoDB · MySQL · SQLite

AI / ML: YOLOv8 · ONNX Runtime Web · SentenceTransformers · PyPDF2

Tools: Git · GitHub · Postman

EXPERIENCE & LEADERSHIP

Secretary — IEEE Computer Society
Sri Sairam Institute of Technology | 2025 - Present

- Organised technical workshops and events, connecting students with industry professionals.
- Coordinated chapter communications and cross-functional teams for all IEEE CS events.

PROJECTS

ReadsDot AI - Braille Detection & Translation

React · TypeScript · YOLOv8 · ONNX Runtime Web · Tailwind CSS | github.com/Guna-garan/ReadsDot

- Built an accessibility web app that detects and translates Braille from images entirely inside the browser using a YOLOv8 model converted to ONNX zero backend inference required.
- Engineered a custom preprocessing pipeline (Canvas API, grayscale, thresholding, dot grouping, character mapping) and a bidirectional Text to Braille conversion engine and vice versa.

SkillLens AI - Resume Screening & Candidate Ranking

React · TypeScript · FastAPI · Python · SentenceTransformers · SQL | github.com/Guna-garan/SkillLens_AI

- Developed an AI resume screening platform using SentenceTransformers + cosine similarity for semantic candidate-to-job-description matching .
- Architected and integrated bulk resume upload and PDF parsing functionalities, accelerating candidate ingestion by 70% and reducing manual effort.

E-Commerce Website - Responsive Shopping UI

HTML5 · CSS3 · JavaScript | github.com/Guna-garan/E-commerce-

- Built a fully responsive e-commerce UI with product filtering, cart management, and mobile-first layouts.

EDUCATION

B.E - Computer Science and Engineering

Sri Sairam Institute of Technology, Tamil Nadu | 2024 – 2028 | CGPA: 9.20 / 10

Senior Secondary (CBSE)

The Pioneer School | 2023 – 2024 | 84.20%

CERTIFICATIONS

AWS Solutions Architecture Job Simulation – Forage
Coursera – Programming with Java

Effective Leadership - HP LIFE eLearning

MongoDB Basics for Students - MongoDB University

Generative AI - LinkedIn Learning

Introduction to Frontend Development - Simplilearn
